

Laboratory Technician

The **Bayshore Regional Sewerage Authority** (Authority/BRSA) owns and operates a 16 million gallon per day water resource recovery facility located in the Bayshore Area of Monmouth County. The Authority has an immediate opening for a **Laboratory Technician**. The Laboratory Technician works 40 hours per week (weekend work required) and reports to the Assistant Superintendent of Operations.

Under the direction of the Chemist, prepares, performs, and reads chemical, bacteriological, and physical tests and analyses of raw wastewater, partially treated wastewater, treated wastewater, and wastewater by-products to determine efficiency of plant processes and ensure that plant effluent meets all regulatory requirements. Completes and maintains proper legible logs, records, and forms. Maintains proper communication with and reports all irregularities to the Chemist or his/her designee. Performs necessary housekeeping duties required to maintain a safe, healthy, and regulatory compliant work environment indoors and outdoors. Adheres to all safety standards and exhibits the ability to take corrective measures should a safety hazard occur. Adheres to all directives issued by the Chemist and performs a variety of related duties as assigned.

Complies with all BRSA rules, regulations, safety policies, and procedures

The candidate must possess a valid NJ driver's license and have excellent verbal and written communication skills. A related college degree is preferred. Computer skills are preferred, specifically Microsoft Office (Excel, Word, and Outlook).

The Authority offers a very competitive salary, benefits, and Pension package including NJ State Health Benefits Plan, NJ Pension Plan, Dental, Vision, Paid time off, Education and Training Programs. Salary is commensurate with experience.

The Authority is an equal opportunity employer. The Authority is conveniently located off the Garden State Parkway at Exit 117.
